CF Architects is a design-led studio creating residential sanctuaries for the art of slow, intentional living. Based in Bryanston, Gauteng, this refined practice believes your home should be more than shelter, it should transform how you live. Specialising in unique new builds and timeless renovations their principal-led team listens before sketching the first concept. Beyond architecture, CF Architects offers a seamless turnkey experience that encompasses interior design, landscape, smart home integration, and project management across: Gauteng, the Garden Route, and Cape Town.

One team. One vision. From the first conversation to the moment you step inside your completed sanctuary.

“A design-led studio creating residential sanctuaries for the art of slow, intentional living.”
